Release Notes for SimplerQMS Patch 3.5.0

Improvements

ID	Summary	Details
SQ-1105	New Web Interface Enabled	The New Web interface will now become the default web experience, and the New Desktop / Old Desktop toggle will be enabled for all customer vaults with the default desktop experience being Old Desktop.
SQ-1102	Comment Feature Now Fully Supported in New Interfaces	<p>The Comment feature is now fully supported in the New Web and New Desktop interfaces along with the Old Desktop interface.</p> <p>This improvement ensures a consistent user experience across all supported interfaces.</p>
SQ-1103	Background Transition Performance Enhancements	<p>Performance improvements have been made to the Background Transition application to improve stability.</p> <p>These enhancements improve the reliability of background transaction cleanup processes, helping workflows continue more smoothly and reducing the likelihood of delayed or unstable background transitions.</p>
SQ-1104	Maintenance Users Excluded from License Dashboard	<p>Maintenance are now excluded from the License Dashboard.</p> <p>This improvement prevents maintenance accounts from appearing alongside regular users, reducing confusion and providing customers with a clearer and more accurate overview of license usage.</p>

Bug Fixes

ID	Summary	Details
SQ-873	Periodic Document Review No Longer Failing to Close	Fixed an issue where the Periodic Document Review process could sometimes become stuck before reaching the final completion state. Periodic document reviews now complete as expected, ensuring a smoother and more reliable review workflow.
SQ-1094	Closed Supplier Audits No Longer Display Retired Banner	Fixed an issue where Supplier Audits in the Closed state were incorrectly displayed with a red "Retired/Archived" banner.
SQ-1099	Home Dashboard Tiles Now Clickable	Fixed an issue where the "Training Pending" tile on the Home Dashboard could not be clicked. This issue also affected other dashboard tiles. Dashboard tiles are now fully clickable as expected, allowing users to quickly navigate to related views directly from the Home Dashboard.
